

PROTECT OUR LOCAL WATERS YOU ARE THE SOLUTION!

1

Keep loose litter off the street, out of storm drains and the ocean.

2

Sweep up trash and leaves along the curb. Unclutter your street gutter to protect our ocean.

3

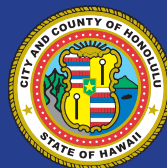

Install a rain barrel or other Green Infrastructure! When rain is contained on your property less will runoff, reducing stream and ocean pollution.

**PROTECT OUR LOCAL WATERS
YOU ARE THE SOLUTION!**

DEPARTMENT OF
FACILITY MAINTENANCE

YOU ARE THE SOLUTION!

Many hands make light work. Through our combined efforts, we can make a difference together!

To reduce our impact on our local waters, we need actions from organizations and individuals.

By committing to the **You Are the Solution Pledge**, you will join a growing movement of people in your community who have decided to step up and take responsibility, one person at a time.

This pledge suggests small changes you can make in your daily life that make a BIG difference in the long run. You may already practice some of these but there is always room for improvement!

Your help is needed to protect our local waters.

Join In! The majority of Oahu residents care about keeping the streets clean and sweep in front of their homes regularly.

Storm drains carry water away from our neighborhoods.

About 20% of residents regularly participate in volunteer clean ups and over 70% are willing to participate when asked.

80% OCEAN TRASH comes from LAND

If litter and debris builds up, then our neighborhoods may flood!

Or the litter and debris goes to our local waters!

2/3 World's FISH hurt by PLASTIC
