

# POST-CONSTRUCTION PERMANENT MANUFACTURED STORM WATER TREATMENT DEVICES & PERMEABLE PAVEMENT

## Operations and Maintenance (O&M)

Proper upkeep of a manufactured storm water treatment device or permeable pavement is important to maintain water quality standards and the device's treatment capacity over time. The City permits the installation of storm water treatment devices approved for general use under the Washington State Department of Ecology's Technology Assessment Protocol- Ecology (TAPE) Program.

Contact a service specialist (below) for help with maintaining your device. Download the O&M manual or contact the manufacturer to learn more about the specific requirements for your storm water treatment device.

## O'ahu O&M Service Specialists

ALL PRODUCTS AND SYSTEMS		
Company	Area of Expertise	Contact
Apex Companies, LLC	General, including permeable pavement	Sean Porter (858) 558-1120 sean.porter@apexcos.com
