

WHAT CAN YOU DO?

Carry it there! *In public spaces hold onto your litter until you can place it in a receptacle.*

Don't overfill public trash receptacles! *Excess trash may blow away before collection.*

Redeem HI5 cans and bottles. *Gathering these from public spaces can add up. Don't let \$\$ go down the drain.*

Pick up trash! *Just one piece of litter a day makes a difference.*

Use your purchase power! *Refuse single use and reuse. Choose items with less packaging.*

Volunteer at a clean-up! *Find opportunities at bit.ly/volunteer-inquiry.*

Tell your friends and family! *Sharing this information with others can create more action.*

TAKE PRIDE IN YOUR COMMUNITY

Keep It Clean & Litter Free

- Litter sends a message that people don't take pride in their community and reduces property values.
- People are more likely to litter where there is already litter or discarded items.

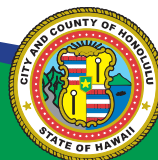

Litter in our watersways affects:

- Tourism
- Boat and ship maintenance
- Ecosystem and human health

People Care!

- Litter and littering is decreasing across the U.S. but so much more needs to be done.
