Page 2

I understand that if the discharge contains any chlorine or any other pollutant, as defined in the Federal, State, and City laws or regulations, a National Pollutant Discharge Elimination System (NPDES) permit is required from the State Department of Health for the discharge of swimming pool water into waters of the State through the Municipal Separate Storm Sewer System (MS4). I understand that this permit applies only to the discharge of dechlorinated swimming pool water into the City drainage facility. Any direct discharge into the waters of the State requires a State permit.

NPDES Permit No. _____ Expiration Date: _____
